## Testimonials.....Bootcamp Success

"I have to say that the Leadership Bootcamp was the **MOST** useful leadership course I've been to - and I've been to a lot. I'm a former federal public servant, (now a teacher) and they used to throw some really expensive twaddle at us that never really 'caught' our imaginations. The Leadership Bootcamp was surprising, engaging, thought provoking and genuine, as well as fun! Perhaps a great definition of how we would all like our working lives to be. Congratulations."

~ Roseanne Byrne, Richardson Primary School, A.C.T.

"Stuart was an excellent presenter – clear, stimulating, engaging, enthusiastic and at times challenging. He made it easy to ask questions and be a part of the learning and to get involved. I rate this as the BEST leadership course I have ever attended."

~ Narelle Barker, Head of Junior School, Presbyterian Ladies College, Sydney, NSW

"I am going away rich with ideas and strategies to use with my team...It has helped me to re-evaluate how I deal with my team and be a more effective leader."

~ Krystina Pirnke, Deputy Principal, Richardson Primary School, ACT

"The Leadership Bootcamp was energising, thoughtful and very productive. It challenged my thinking on leadership while at the same time affirming my role in leading my school."

~ Jenny Webb, Principal, St Patrick's School, Guildford

"The Leadership Bootcamp was brilliant. Completely different from anything else I have attended. It gave practical solutions to real problems; clarified my thinking, allowed me to identify the real issues. I can't wait to get back to put it into practice what I have learnt. I would recommend the Bootcamp to others."

~ Tania Darling, Deputy Head, Scotch College Junior School, South Australia

"I have gained some great tools to put some much needed processes into place back at the school. It reinforced my beliefs on my leadership characteristics and provided reflection on areas I need to develop."

~ Cath Jeffrey, Deputy Principal, Mirani State High School, Queensland

"I was motivated and provoked to think constructively about innovation and to critically research my own leadership style. I found it extremely worthwhile."

~ Stephanie Barnett, Deputy Principal, Rangitapu Girls School, Christchurch, New Zealand

"I feel re-energised and inspired about the leadership I want to provide in the future."

~ Josie Zanic, Year Coordinator, St Columba's College, Victoria

"The Bootcamp provides you with an opportunity to re-evaluate your leadership role. All too often we are busy developing our curriculum so this was a refreshing change."

Rebecca O'Grady, Year Coordinator, Concordia Lutheran College, Queensland

# Why a Bootcamp?

Quite simply, because you're going to be exercised like never before.

No, you'll not be asked to go white-water rafting, or perform hundreds of sit-ups, scale a climbing wall or even do stair runs up the Rialto Tower.

However..... you must arrive prepared to work...intellectually, maybe even emotionally and your values, beliefs and character may get a bit of a make-over as well! We would also suggest your priorities will look a little different after your time with us as well.

But with work there are rewards. And these two days have been designed to reward those who commit to attending the event.

When you hear the name *Bootcamp*, it conjures up exercise – and that's exactly what the *Leadership Bootcamp* is all about. We want you to leave after 2 days having experienced:

- **a thorough learning workout**
- **great deal of fun while learning at the same time.....and most importantly.....**
- **a series of brilliant workshops that enable you to walk away with some of the best cutting-edge thinking, strategies and tools you could ever wish for to accelerate your performance as a leader.**

.....and all of this will be delivered by one of the most dynamic speakers and trainers in Australia today.

**Keep reading to find out what you will discover  
at the *Leadership Bootcamp*...**

# Leadership Bootcamp Session Overviews

We've worked to make sure we can bring you the very best information and techniques from the very best speakers and presenters. The line-up is great and the content we've packed into this event you will not find anywhere else.

By registering for this event and committing to your own development you will be exposed to leading-edge strategies and techniques as well as the very latest research and most effective tools delivered across two dynamic, engaging and entertaining days, including...

## The Essential Art Of Leadership Communication

You would be hard-pressed to find any leader of distinction with a record of success having been a poor communicator.

The ability to communicate effectively is a key skill for any Leader to possess. The Leader must communicate in a way that moves people to action, touches them emotionally, inspires them, motivates them, encourages people to strive for better. Without doubt the Leader's success is directly related to the success of the people they lead. The success of their people will be determined in part by the quality and effectiveness of the Leader's communication.

A Communication Model will illustrate the opportunities we have to communicate with people and what it takes to communicate in a way that ensures people take the steps and move in the direction the Leader has mapped out.

But what does it take to communicate in a way that motivates, empowers and inspires people? That's what this session will explore. By the end of this session, there will be little doubt in your mind that communication is an ongoing process, and that we must get better at it to be truly succeed as a Leader.

Essentially, you '*cannot not communicate*' and we must be mindful of every message we send to people from the moment you arrive to work to the time you leave. It is your responsibility as a Leader to communicate a consistent message to the staff and the students, a message that motivates and empowers them to perform at their peak.

We will show you how!

[Registration form on Page 14](#)

## Motivating and Inspiring Your People

What does it take to guarantee a person's commitment to perform at their peak and strive to improve continuously?

The leader is excited, driven, motivated. But many leaders experience a team that is not. Motivation is elusive for many leaders and teams. They know what they want, yet struggle to create it among their people.

But not any longer! We'll take you through tried and tested strategies supported by rigorous research to fire-up your team!

However, this must be done with care and with caution. There are traps that leaders can fall into when attempting to motivate a team. It can be a minefield, where the wrong step can spell disaster.

We're going to show you where the 'mines' are located so you can step around them and guarantee your team's success.

This session will ensure you don't let yourself or your team down.

## The Vital Characteristics Of Successful Leaders

What separates the very best leaders from the also rans?

The way to work this out is firstly look at the results of the leaders around you, then identify the ones who are making the real differences as leaders and study what it is they do, how they do it, and what they have that makes them so effective.

We've made it our mission to do just that, and we want you to have access to our vault of research where we've shone the spotlight on leaders from Australia and around the world and distilled everything they have to the fundamentals. And we're going to share it all with you at the Bootcamp.

**Registration form on Page 14**

## Creating High Performance Teams

Are Leaders only as good as their followers? Everything we're covering at the *Bootcamp* is about creating your success and the success of others – your team.

We will let you in on the secrets that the very best coaches and managers use but prefer to keep to themselves. We've done the groundwork so you'll discover:

- What separates winning teams from the second place-getters – there is a formula and it's vital you know it
- The critical steps your team must follow for any chance of success – this very well-trodden path, that can take you and your team from cellar-dwellers to champions has been traversed by every elite team. We will show you every step along this path.
- The crucial success elements that every high performance team either has, or if it doesn't, **MUST** create, before it's too late. Without them your team will always be on the 'critical' list with little chance of resuscitation.
- What you must avoid doing when you're leading a team – there are 5 golden rules that the majority of Leaders break, and we can almost guarantee that you're breaking at least one of them - which is why Leaders are always putting out 'fires', why they feel they have so many problems to sort out and never have enough time to get on with the job.

## Keeping it in Balance – More Time, Less Guilt, Better Results

What's life like for a Leader? Usually overworked, stressful, lonely and not as rewarding as many were told as they rose through the ranks.

Well, it's critical you keep it all in balance. Too much focus on any one aspect of your professional life will only lead to disappointment and regret elsewhere.

This session will ensure you walk away with all of the tools you need to enjoy a balanced life – where you get to enjoy the rewards of career success as well as the joy and satisfaction of a successful personal life.

This is one area so many Principals tell us is such an obvious need among school leaders, yet get's so little attention. You can't afford to miss this session.

## Creating Your Leadership Style

This session is critical to your understanding of, and performance as a leader.

It is essential that leaders be consistent when addressing the challenges that inevitably arise with their team. Even though a range of issues will require your attention as a leader, having a predictable and measured way to respond will increase your effectiveness.

Your ability to do this however, relies on accessing a reliable model.

Without this model you run the risk of being inconsistent in the way you address issues as they arise in your school, and therefore becoming an ineffective leader.

By knowing how to respond consistently to issues that arise in your leadership role, you will not only create your success as a leader but you will also dramatically improve the productivity of your team.

This session will provide you with the models and strategies you need to apply to the various situations you will encounter which will enhance your performance in your job at work. You will explore:

An Effective Leadership Model

Applying the Model to Your Role as a Leader

## The Leadership Blueprint

This will accelerate your development and performance as soon as you return to your school.

The Leadership Blueprint will be the plan you carry with you and refer to all the time - it will be your constant companion after the Bootcamp!

Why? Because it will contain every step you're going to take after the Bootcamp to make you an even better leader. You will return to work with a very detailed action plan for you to implement immediately.

By the time you leave at the end of day 2 you will have reflected, thought, discussed, identified and recorded in your Blueprint the exact steps you need to take to propel you forward. It's an essential ingredient to your leadership success!

**Registration form on Page 14**

The *Leadership Bootcamp* is jam-packed with awesome content that any Leader will want to make sure they are exposed to. Make sure you don't miss out!
